

Keep Montgomery County Beautiful

Fiscal Year 2007 Community Beautification Grant Application

COMMUNITY BEAUTIFICATION GRANT PROGRAM

The Keep Montgomery County Beautiful Program is seeking community organizations to beautify and improve the overall aesthetics of neighborhood communities in Montgomery County. Any community organization within Montgomery County may qualify as a project sponsor.

GUIDELINES

Grant Funding

1. Grants are intended to fund new projects that improve community aesthetics, meaning they have a visible community impact. Grants will not be awarded for construction projects (such as the construction and installation of signs, bridges, pathways, etc.); landscaping accessories (such as planters, wood screens, benches, tiles, fencing, gloves, stone, hoses, etc.); general maintenance (this would include tree trimming/removal, stump grinding/removal, shrub removal, etc.); payment to workers (should be volunteers); purchase of equipment (although rental of equipment necessary for the project will be funded at a reasonable cost); or for work which has already been completed.
2. Grants will be awarded in amounts of up to \$500. County funding must be matched by at least an equivalent amount of community funding.
3. Volunteer hours may be included and are counted towards the total cost of the project. However, volunteer hours will account for no more than 20% of the cost of materials, equipment rental and miscellaneous items associated with the project. Volunteer hours will be calculated at a rate of \$5.50 per hour per person.
4. Direct community involvement (other than planning) is expected. Projects performed solely by contractors will not be approved.
5. Preference will be given to applicants planting perennial flowers and other permanent types of plantings such as shrubs, trees, or other landscaping. Planting of some annuals may still be awarded. Applicants are encouraged to plant native species, avoiding non-native and invasive varieties. For more information, see The Maryland Native Plant Society publication at <http://www.mdflora.org/publications/invasives> or The Home and Garden information center at <http://www.hgic.umd.edu/>.
6. Grants will be limited to one grant per community organization every three years from date of approval.
7. New applicants will have priority over previous grant recipients.
8. At the time of award, one-half of the County funding will be provided. The remaining half will be provided when the project has been completed and approved by the Department of Public Works and Transportation.
9. Receipts from purchases, donations, volunteer time, and other expenditures must accompany request for final payment by the sponsor of the organization. Also, photographs of the completed projects are required.

10. Due to the large number of grant applications received for limited funding, awardees have one year from the date of their approval letter to submit all paperwork necessary to receive both grant installments (entire grant). Otherwise any outstanding monies owed to you will be considered forfeited and awarded to other projects.
11. Requests for grants must be made by the leadership of the community organization.
12. Requests for grants must contain a complete description of the project, specific project location with a sketch map, informal sketch of the project, photographs of the area proposed for the project, an itemized list of costs, an itemized list of plant types, and an indication of the level of direct community involvement associated with the project.
13. Property must be publicly owned (County, State, or Municipality), or in common ownership of the organization. Grants cannot be awarded for improvements to individual residences.
14. The community organization will be responsible for obtaining all necessary permits and approvals, where required, prior to release of County funds or commencing the project. Many beautification projects will not require permits. However, work on public property, including the right-of-way for roads, will require permits from the County, State, Municipality, or the jurisdiction responsible for the area.
15. Community organizations must also present a statement of maintenance responsibilities for the project and how they will be implemented.

Types of Projects

1. Planting of flowers, shrubs, and trees along walkways and in communal areas.
2. Planting of wildflowers in unsightly areas.
3. Landscaping of community entranceways.
4. Beautification of parking areas, including plant screening, at community buildings or open space areas.
5. Clean up of debris in communal areas in conjunction with a landscaping project.
6. Other beautification projects deemed suitable by the Keep Montgomery County Beautiful Task Force, which will review grant applications and recommend approval, modification, or denial to the Director, Department of Public Works and Transportation.

Deadlines

Fall

The deadline for the fall review is August 1, 2006. We will continue to review applications through November 1st if grant funds are available.

Spring (spring review will not take place if grant funds for the fiscal year have been exhausted.) The deadline for the spring review is March 1, 2007. We will continue to review applications through June 1st if grant funds are available.
